Qualitative achievements against objectives and results Objective one

• Completed the design and the uploading of the Iraq National VTC Network, which will link all Iraqi VTCs, which are to be managed by MOLSA in Baghdad, providing users/Trainers with all the necessary information on the VTC / Training Courses. (The site is bilingual). *Website: www.iraqvtc.com.*

The project aims to connect VTC's all over Iraq with an automated system using the web as its medium. The system provides information as per the following:

For Visitors (Trainees)

- Current and upcoming training sessions, dates, content, and location.
- Search utility to filter trainings courses and Vocational Training Centers.
- Documents needed to apply for the training.
- General and private condition for the training.
- News Publications on the VTCs and MOLSA.
- FAQ and Contact us section.

For VTC's and MOLSA (Trainers)

- Adding and editing monitoring records about trainees and training information.
- Adding and editing Center information.
- Extracting reports about the VTCs such as number of current trainings, number of graduates, failed students, and female and male counts with the ability to filter reports.
- A VTC Networking Training was conducted in Amman for 7 participants from July 12th 15th to train Iraqi IT specialists / Web developers on how to operate / maintain / manage the network. As an outcome, a VTC networking workplan was finalized and the Network / Website is expected to be officially launched in January 2011.

• ILO CBT consultant completed reviewing the 33 Competency Based Training (CBT) packages. The reviewed Packages were sent to the Iraqi CBT National Committee to review the comments.
