ONE PLANET MULTI-PARTNER FUND FOR SDG 12: FROM *GLOBAL COOPERATION TO NATIONAL IMPLEMENTATION*

One Planet Multi-partner Trust Fund (MPTF) on SDG 12 is a partnership between six UN agencies engaged in the **One Planet network**: the Food and Agriculture Organization, UN Development Programme, UN Environment Programme, UN-Habitat, the UN Office for Project Services and the UN World Tourism Organization, administered by the UN Multi-Partner Trust Fund Office.

It aims to support countries in the implementation of Sustainable Development Goal 12 (SDG 12) for integrated action at national level to deliver on Agenda 2030.

The Fund is a pooled funding mechanism for cohesive action to support countries in assessing, designing, prioritizing and implementing policies and practices for Sustainable Consumption and Production (SCP), bringing together the expertise of the One Planet network members and the comparative advantages of the participating UN agencies.

Steering Committee is the decision-making body of the Fund. It is composed of 9 members, comprising high-level representatives of all 6 UN Agencies, Chair of the 10YFP Board, and representatives of the funding partners from Germany and Denmark.

JOINT PROGRAMMES OF THE 2020 FUNDING CYCLE

2020 marked the first funding cycle under the MPTF, with the Steering Committee selecting two pilot joint programmes to be implemented in 2020-2022.

With the limited financial resources available, the pilot programmes aim to demonstrate the potential of the

Fund to strengthen inter-agency delivery model to countries that builds on the global pool of knowledge, resources, and partners such as the One Planet network and brings it to the national level in a way that serves the needs of the countries and responds to their priorities.

The two joint programmes are:

“SDG 12 Resource Efficiency Housing (Multi-agency support to UN Country Teams in mainstreaming resource efficiency in the housing, buildings, and construction sector)”, jointly implemented by UN-Habitat, UNEP and UNOPS

“Promoting sustainable food consumption and production patterns through integrated tools, advocacy and multi-stakeholder action” jointly implemented by FAO, UNDP, UNEP, and UNWTO

Both programmes started implementation in the last quarter of 2020 and directed the initial efforts in establishing the internal cooperation structure and setting the grounds for full scale implementation in 2021.

ONE PLANET MPTF FOR SDG 12 AND STRATEGIC INTER-AGENCY COLLABORATION

The inter-agency cooperation made possible by the One Planet Multi-Partner Trust Fund for SDG 12 is a strategic undertaking. The preparatory phase that took place in 2020 that led to the development of the joint programmes and their initial implementation, already demonstrated that the work goes beyond the funded programmes. It has allowed the participating agencies to reflect on and discuss their comparative advantages and build on them when planning the joint activities.

Responding to the [United Nations Development Reform](#), the Funds seeks to avoid fragmentation in supporting countries on their paths towards achieving Agenda 2030 and instead offers a mechanism to bring the global expertise on SDG 12 to national level in a coherent and collaborative manner adapted to the needs of the countries.

ONE PLANET MPTF FOR SDG 12 AND COUNTRY NEEDS AND PRIORITIES

Both programmes work directly with in-country partners to plan national activities and make sure they align with other on-going projects, processes and policies. For example, the joint programme on buildings/construction has undertaken a call for expression of interest among the UN country teams. The selection methodology was structured around 3 pillars: government interest and commitment, country office interest and commitment, and data and information availability. Application evaluation and in-depth calls with the interested countries, resulted in Sri Lanka and Burkina Faso being selected for project implementation.

The programme on food through its work on sustainable food systems in Uganda will support the implementation of National Development Plan, the AgroIndustrialization Plan, and the Zero Hunger Plan and will do so taking into account other on-going projects to avoid fragmentation and achieve optimum outcome.

ONE PLANET MPTF FOR SDG 12 AND THE ONE PLANET THEMATIC PROGRAMMES

The joint programmes contribute to the goals of the thematic programmes of the One Planet network, more specifically to the ones on Sustainable Food Systems (SFS), Sustainable Tourism (STP), Sustainable Buildings and Construction (SBC). The programmes build on the

tools and solutions available in the Network as well as leverage its broad pool of partners.

For example, the joint programme on food uses the “Collaborative Framework for Food Systems Transformation” of the SFS programme as one of the main building blocks for the development of one of its main outputs - the tool for multi-stakeholder collaboration for food systems transformation. At the same time, the joint programme on building/construction will use the pool of experts of the SBC programme to support the implementation of its activities.

JOINT PROGRAMMES

2

Photo by xxxxxxx on Unsplash

This section provides the introduction of the two joint programme and presents their progress achieved in 2020.

Photos: Far left: Photo by xxxxxxxx on Unsplash;
Above: Photo by xxxxxxxx on Unsplash

SDG 12 RESOURCE EFFICIENT HOUSING

(Multi-agency support to UN Country Teams in mainstreaming resource efficiency in the housing, buildings, and construction sector), jointly implemented by UN-Habitat, UNEP and UNOPS

The programme aims to integrate resource efficiency into the building's life cycle by equipping UN Country Teams (UNCTs) with the necessary tools and information. More specifically, the two main objectives are to:

- 01 Support governments in transforming their buildings and construction sector to be a resource efficient, low carbon and climate resilient, through coherent policy support and results-focused programming based on science and local needs.
- 02 Raise awareness and strengthen the capacity of national stakeholders on sustainable buildings and construction-related benefits and opportunities with the emphasis on material efficiency.

QUICK FACTS

Budget:
USD 500,000

Duration:
2 years (October 2020-
October 2022)

Pilot countries:
Burkina Faso and
Sri Lanka

MAIN OUTPUTS

-  Sustainable Buildings and Construction Mainstreaming and Advocacy Package for UNCTs covering policy, investment value, and capacity building in building and construction programmes, tested in pilot countries
-  Value assessment methodology for national buildings and construction programmes, focusing on national housing-related ones, tested in pilot countries
-  Country assessment tailored to the pilot countries to provide a solid baseline of the construction sector, followed by the development of national Sustainable Buildings and Construction roadmaps.

EXPECTED OUTCOME

Improved strategic implementation of the 2030 Agenda and the Paris Agreement through enhanced UN support to governments to mainstream sustainable buildings and constructions, with the focus on the housing sector.

PROGRESS IN 2020 (OCTOBER – DECEMBER 2020)

Pilot countries selection

-  At the initial stage of the programme, the agencies focused their efforts on defining the methodology and undertaking the selection process to identify the pilot countries for implementation.
-  The country selection methodology was structured around 3 pillars: Government interest and commitment; UN Country office interest and commitment; data and information availability.
-  Following the in-depth analysis of the applications and interviews, 2 countries were selected for implementation: Sri Lanka and Burkina Faso.
-  National Governments of both countries have shown support to pilot projects. In addition, both countries have policy frameworks in place to accommodate a project on resource efficient housing; have a number of on-going projects to build synergies with, as well as have research and innovation activities that contribute to sustainability of the construction sector.
-  Both, Sri Lanka and Burkina Faso have on-going UN Sustainable Development Cooperation Frameworks that offer room for collaboration. There is also an opportunity to contribute to the next cycle, starting in 2023.
-  In-country activities are the focus of 2021 and cover country assessments, roadmap analysis and value assessment methodology development for national housing project

PRELIMINARY RESEARCH AND INCEPTION REPORT:

The inception report presents the preliminary research undertaken by the Agencies in preparation for full-scale implementation in 2021. The research undertaken in 2020 to be included in the inception report in 2021 covers:

Building and construction trends: The Agencies extracted and summarized information on building and construction trends from existing reports/initiatives to which they are a part of (One Planet Sustainable Buildings and Construction Programme; International Resource Panel, GlobalABC, World Cities report, etc.) Specific attention was paid to the issue of materials, value chains and resource efficiency in the buildings and construction sector. This desk research looks at global and regional trends for the sector and related opportunities for achieving the objectives established by the Paris agreement and New Urban Agenda.

Building and construction, resource efficiency and capacity building tools: The Agencies made a preliminary selection of tools for the SBC advocacy and mainstreaming package that the programme aims to develop in support to the UN Country Teams. This work will be taken forward through the call for expression of interest among the partners of the One Planet SBC Programme.

Country stock taking: Desk research of National policies, building and construction programmes, UN Sustainable Development Cooperation Frameworks, Nationally Determined Contributions, Voluntary National Reviews and Housing profiles (if available) was conducted by the Agencies .

The inception report will be available in the 2nd quarter of 2021.

PROMOTING SUSTAINABLE FOOD CONSUMPTION AND PRODUCTION PATTERNS THROUGH INTEGRATED TOOLS, ADVOCACY AND MULTI-STAKEHOLDER ACTION

jointly implemented by FAO, UNEP, UNDP and UNWTO

The programme aims to achieve coherent policies and strengthened human capacities for sustainable, resilient, and inclusive food systems development at national and municipal level.

It will achieve this aim with the development of global tools and approaches for facilitating a cross-sectorial and whole-of-government approach for collaborative and integrated food systems development at national and sub-national levels, and for promoting sustainable food management in the tourism sector.

QUICK FACTS

Budget:
USD 500,000

Duration:
2 years (September 2020-
September 2022)

Pilot countries:
Uganda and
Rio de Janeiro, Brazil

MAIN OUTPUTS

-  Tool for multi-stakeholder collaboration for food systems transformation (piloted in Uganda)
-  Global tools and approaches for sustainable food management in the tourism sector
-  Enhanced policy coherence and multi-stakeholder and sectoral actions to promote sustainable food consumption and production patterns at national and sub-national levels (in Uganda, and Brazil at urban level)
-  Strengthened capacities of food system actors on sustainable approaches in policies and interventions; on urban and peri-urban linkages for sustainable food systems and nutrition; and on sustainable good management for food and hospitality businesses
-  A global behavioural change campaign “Groundswell” catalysed at city level, including the establishment of a Sustainable Food City Partnership in Brazil

EXPECTED OUTCOME

Coherent policies and strengthened human capacities for sustainable, resilient and inclusive food systems development at national and municipal levels.

IMPLEMENTATION APPROACH

The Programme will draw from the different but complementary areas of expertise, tools, approaches, experience and partnership networks of the four participating UN agencies to promote effective positive change towards transforming the agricultural and food system in a holistic way.

PROGRESS IN 2020 (OCTOBER - DECEMBER 2020)

National Implementation preparatory joint activities

-  The Agencies prepared an action plan for activities on food systems transformation in Uganda. This included the development of a concept note and outline for an inception workshop on Sustainable Food Systems Transformation to take place in 2021. The workshop aims to present a coordinated UN approach on food systems transformation., Through this workshop the presentation of a high-level joint work-plan for the most relevant food systems' related projects led by the respective Agencies in Uganda will inform discussions on Uganda's National dialogue for the Food Systems Summit and identify entry points for supporting the implementation of the National Development Plan, the AgroIndustrialization Plan, and the Zero Hunger Plan.

PROGRESS IN 2020 (OCTOBER - DECEMBER 2020)

Multi-stakeholder collaboration tool

- UNEP, UNDP and FAO have finalised the outline of the hybrid tool for multi-stakeholder collaboration to be piloted in Uganda. Building on the work and experience of the three agencies on this topic, the tool will focus on ways to improve multi-stakeholder collaboration. It will build on the Collaborative Framework for Food Systems Transformation developed by the One Planet Food Systems Programme and will focus on how to establish effective multi-stakeholder collaboration. In other words, the joint tool will discuss elements related to the process of collaboration, in general and with specific reference to sustainability, that can make dialogue successful and effective. The focus will be on the main issues, obstacles and challenges encountered by people with different backgrounds, expectations and interests that sit at the same table and are expected to take shared decisions.

Sustainable food management in tourism

- Advisory Group involving key tourism stakeholders to support the development of the Global tools and approach for sustainable food management in the tourism sector was established. The Advisory group includes renowned companies such as Accor, Booking.com, Club Med, Costa Cruises, Disneyland Paris, Hilton, Hyatt, IHG, Iberostar, Marriott, Radisson, etc., and organizations with a track record on sustainable food (e.g. IUCN, WRI, WRAP, WWF).
- Inception workshop for the development of the Global Roadmap on Food Loss and Waste Reduction in Tourism was organized on 14th December 2020 with Advisory Group members and observers (total 53 participants). Participants agreed on the importance of mapping food waste prevention and reduction activities in tourism, including measurement, so that the Roadmap encompasses ongoing efforts and addresses persisting gaps. Accommodation providers and cruise lines were identified as priority sub-sectors to be addressed by the Roadmap.

2020 FINANCIAL PERFORMANCE

3

Photo by xxxxxxx on Unsplash

This chapter presents financial data and analysis of the One Planet MPTF Fund for SDG 12 using the pass-through funding modality as of 31 December 2020. Financial information for this Fund is also available on the MPTF Office GATEWAY, at the following address: <http://mptf.undp.org/factsheet/fund/OPL00>.

SOURCES AND USES OF FUNDS

As of 31 December 2020, 2 contributors deposited US\$ 1,211,927 in contributions and US\$ 14,373 was earned in interest. The cumulative source of funds was US\$ 1,226,300.

Of this amount, US\$ 695,456 has been net funded to 6 Participating Organizations, of which US\$ 51,360 has been reported as expenditure. The Administrative Agent fee has been charged at the approved rate of 1% on deposits and amounts to US\$ 12,119. Table below provides an overview of the overall sources, uses, and balance of the **One Planet MPTF Fund for SDG 12** as of 31 December 2020.

Financial Overview, as of 31 December 2020 (in US Dollars)

	Annual 2019	Annual 2020	Cumulative
Sources of Funds			
Contributions from donors	1,111,927	100,000	1,211,927
Fund Earned Interest and Investment Income	1,874	12,500	14,373
Interest Income received from Participating Organizations	-	-	-
Refunds by Administrative Agent to Contributors	-	-	-
Fund balance transferred to another MDTF	-	-	-
Other Income	-	-	-
Total: Sources of Funds	1,113,801	112,500	1,226,300
Use of Funds			
Transfers to Participating Organizations		695,456	695,456
Refunds received from Participating Organizations		-	-
Net Funded Amount		695,456	695,456
Administrative Agent Fees	11,119	1,000	12,119
Direct Costs: (Steering Committee, Secretariat...etc.)	-	-	-
Bank Charges	2	55	57
Other Expenditures	-	-	-
Total: Uses of Funds	11,121	696,511	707,633
Change in Fund cash balance with Administrative Agent	1,102,680	(584,012)	518,668
Opening Fund balance (1 January)	-	1,102,680	-
Closing Fund balance (31 December)	1,102,680	518,668	518,668
Net Funded Amount (Includes Direct Cost)		695,456	695,456
Participating Organizations' Expenditure (Includes Direct Cost)		51,360	51,360
Balance of Funds with Participating Organizations			644,096

TRANSFER OF FUNDS

Allocations to Participating Organizations are approved by the Steering Committee and disbursed by the Administrative Agent. As of 31 December 2020, the AA has transferred US\$ 695,456 to 6 Participating Organizations (see list below).

TRANSFER BY PARTICIPATING ORGANIZATION

Table below provides additional information on the refunds received by the MPTF Office, and the net funded amount for each of the Participating Organizations.

Transfer, Refund, and Net Funded Amount by Participating Organization, as of 31 December 2020 (in US Dollars)

Participating Organization	Jan-Dec-2020			Total		
	Transfers	Refunds	Net Funded	Transfers	Refunds	Net Funded
FAO	95,000		95,000	95,000		95,000
UNDP	100,000		100,000	100,000		100,000
UNEP	229,956		229,956	229,956		229,956
UNHABITAT	142,771		142,771	142,771		142,771
UNOPS	27,729		27,729	27,729		27,729
UNWTO	100,000		100,000	100,000		100,000
Grand Total	695,456		695,456	695,456		695,456

EXPENDITURE BY PROJECT ¹

Table below displays the net funded amounts, expenditures reported and the financial delivery rates by Participating Organization.

Expenditure by Project, as of 31 December 2020 (in US Dollars)

Sector/ Project No. and Project Title		Participating Organization	Project Status	Total Approved Amount	Net Funded Amount	Total Expenditure	Delivery Rate %
Global Component							
00124088	SDG 12 Resource-efficient Housing	UNEP	On Going	216,594	129,956		0
		UNHABITAT	On Going	237,951	142,771	51,360	35.97
		UNOPS	On Going	46,215	27,729		0
00124466	Promoting sustainable food consumption & production patterns	FAO	On Going	125,000	95,000		0
		UNDP	On Going	125,000	100,000		0
		UNEP	On Going	125,000	100,000		0
		UNWTO	On Going	125,000	100,000		0
Grand Total				1,000,760	695,456	51,360	7.39

¹ Joint Programmes started implementation in the final quarter of 2020. Therefore, the delivery rate for 2020 is limited. Next reporting cycle will cover more information on the financial performance of the programmes.
